

CONTENTS

ORIGINAL SCIENTIFIC PAPERS

Physical and Theoretical Chemistry

| | |
|--|-----|
| Chih-Han Sah: Combinatorial Construction of Fullerene Structures | 1 |
| E. C. Kirby: Cylindrical and Toroidal Structures | 13 |
| D. Babić, A. Graovac, and N. Trinajstić: On the HOMO-LUMO Separation in Fullerenes | 35 |
| M. P. Delest and S. Dulucq: Enumeration of Directed Column-Convex Animals with a Given Perimeter and Area | 59 |
| S. Feretić: A New Coding for Column-Convex Directed Animals | 81 |
| A. A. Dobrynin: Generation of Graphs of Unbranched Penta-hexagonal Catacondensed Systems | 91 |
| S. J. Cyvin, B. N. Cyvin, and J. Brunvoll: All-Benzenoid Systems: an Algebra of Invariants | 101 |
| J. Cioslowski and E. D. Fleischmann: <i>Ab initio</i> Electronic Structure Calculations of Molecular Similarity: A Case Study of 4-Aminobutyric Acid and Its Agonists | 113 |
| T. Balogh and G. Náray-Szabó: Application of the Average Molecular Electrostatic Field in Quantitative Structure-Activity Relationships | 129 |
| D. Bonchev, X. Liu, and D. J. Klein: Weighted Self-Returning Walks for Structure-Property Correlations | 141 |
| I. Mayer and P. R. Surján: Handling Overlap as a Perturbation | 161 |
| P. Csavinszky: Investigation of an Inequality between Atomic Expectation Values via the Density Functional Theory | 167 |
| A. Koleżyński, W. S. Ptak, J. Mrugalsky, and K. Tkacz-Smiech: Application of DFT - Cellular Method to Alkaline Metals: Lithium | 177 |
| T. G. Schmalz and D. J. Klein: Renormalization Group for the Linear-Chain Heisenberg Model | 185 |
| D. Juretić, B. Lučić, and N. Trinajstić: Predicting Membrane Protein Secondary Structure: Preference Functions Method for Finding Optimal Conformational Parameters | 201 |
| L. Lončar, K. Otočan, M. Mintas, R. Trötsch, and A. Mannschreck: Chiral Chromenes: Synthesis, Separation of Enantiomers and Barriers to Racemization . . . | 209 |
| D. Kumar, P. L. Clancy, L. Klasinc, and S. P. McGlynn: Laser Optogalvanic Spectrum of Cesium in a Radiofrequency Discharge | 217 |

| | |
|---|-----|
| Z. Dinya, I. Komáromi, F. Sztaricskai, A. Lévai, and G. Litkei: Photoelectron (Hel) Spectroscopy of Flavonoids and Thioflavonoids, I. Molecular Orbitals and Ionization Potentials of Chalcone, Aurone, and 1-Thioaurone | 255 |
| Z. Dinya, F. Sztaricskai, A. Lévai, and G. Litkei: Photoelectron (Hel) Spectroscopy of Flavonoids and Thioflavonoids, II. Photoelectron Spectra of Chromone and 1-Thiochromone Derivatives | 265 |
| M. Lovrić, Š. Komorsky-Lovrić, and M. Branica: Pulse Polarography of Surface EC Mechanism | 279 |
| M. Randić: Comparative Regression Analysis. Regressions Based on a Single Descriptor | 289 |
| E. Stupnišek-Lisac and H. Takenouti: The Behaviour of Cobalt in Concentrated Nitric Acid Solutions | 313 |
| Li Ming: Band Structures for Superconductors $\text{LnBa}_2\text{Cu}_3\text{O}_7$ ($\text{Ln} = \text{Ho, Er, Tm, Yb}$) | 323 |
| B. Šuveljak-Šipalo, R. H. H. Wolf, and S. Musić: Precipitation of Thorium Hydroxide in the Presence of Gelatin and Sodium Nitrate | 331 |
| D. Plavšić, S. Nikolić, N. Trinajstić, and D. J. Klein: Relation between the Wiener Index and the Schultz Index for Several Classes of Chemical Graphs | 345 |
| R. Aruga: Use of Multivariate Chemometric Techniques in the Thermodynamic Study of Chemical Equilibria in Different Solvents | 459 |
| S. Musić, Đ. Dragčević, and S. Popović: Formation of Rust During the Corrosion of Steel in Water and $(\text{H}_4)_2\text{SO}_4$ Solutions | 469 |
| M. Višić and I. Mekjavić: Thermodynamics of the Cell: $\text{Cd}(\text{Hg})_{\text{satd.}} \text{CdCl}_2(m) \text{AgCl} \text{Ag}$ in (10, 30 and 50 Mass per Cent) 2-Propanol-Water Mixtures | 479 |
| M. Višić, A. Jadrić, and I. Mekjavić: The Stability Constants of Cadmium Chloride Complexes in 2-Propanol-Water Mixtures (0, 10, 30 and 50 Mass per Cent) from Electromotive Force Measurements | 489 |
| A. Bobrowski and A. M. Bond: A Comparison of Qualitative and Quantitative Methods used to Define the Resolution of Two Overlapping Reversible Processes in Second and Fundamental Harmonic Alternating Current Voltammetry | 499 |
| M. Mirnik: Theory of the Formation of Colloidal Crystals | 509 |
| A. Kálmán: On the Nature of Hypervalent S-O Bonds in Sulfuranes | 519 |
| E. Pop, M. E. Brewster, Ming-Ju Huang, and N. Bodor: Dihydropyridine Isomerism in the Chemical Delivery System Series | 531 |

Inorganic Chemistry

| | |
|---|-----|
| N. L. Mary and G. Parameswaran: Physicochemical Studies and Thermal Decomposition Kinetics of Cobalt(II) and Nickel(II) Complexes of Acetylacetonaminofluorene | 355 |
| R. Djogić, B. Raspor, and M. Branica: Characterization of the Uranyl-monohydrogenperoxo Complex in Aqueous $0.7 \text{ mol dm}^{-3} \text{ LiClO}_4$ by Spectrophotometry | 363 |
| I. Batinić-Haberle, M. Biruš, V. Imper-Vuletić, and I. Spasojević: Kinetics of the Formation and Hydrolysis of (Desferrioxamine B) Aluminium(III) and Gallium(III) Complexes in Acidic Aqueous Perchlorate Solutions | 373 |

Organic Chemistry

- K. Mlinarić-Majerski, D. Pavlović, J. Veljković, and M. Šindler-Kulyk:** Photochemical Behaviour of 4-Methylene-2-adamantanone, an Exocyclic β,γ -Unsaturated Ketone 385
- I. Leban, A. Majcen Le Marechal, and A. Robert:** The Crystal and Molecular Structures of Two Reaction Products of Geminal Dicyano Oxirane with Thiohydantoine (Compound I) and Thioxobenzoazole (Compound II) 393

Analytical Chemistry

- D. Dobčnik and D. Brodnjak-Vončina:** Determination of End-Points in Hydrolytic Potentiometric Titrations in the Ca^{2+} - F^- System 401
- Š. Cerjan-Stefanović and A. Rastovčan:** Ion Chromatographic Analysis of Anion from Slag Elution 539

Biochemistry

- J. Brnjac-Kraljević, G. Pifat, and J. Herak:** Probing of the Surface of High-Density Lipoproteins with Mn(II) Ions and EPR Spectroscopy 547

CONFERENCE PAPERS

Physical and Theoretical Chemistry

- A. Moyano:** Dual Graphs and Retrosynthetic Analysis of Regular Polyhedranes 27
- B. R. M. Castro, J. A. N. F. Gomes, and R. B. Mallion:** Calculated »London« π -Electron Magnetic-Properties of Some Carbon-Atom Fragments Extant on the Surface of Icosahedral C_{60} (Buckminsterfullerene) 49
- R. Ponc and M. Strnad:** Position Invariant Index for Assessment of Molecular Similarity 123
- S. Nikolić, M. Medić-Šarić, and J. Matijević-Sosa:** A QSAR Study of 3-(Phthalimido-alkyl)-pyrazolin-5-ones 151
- N. Trinajstić:** The Magic of the Number Five 227
- A. Kálmán:** On the Nature of Hypervalent S-O Bonds in Sulfuranes 519

AUTHOR'S REVIEW

Physical and Theoretical Chemistry

- J. Ladik:** How to Tailor Polymers with the Help of Quantum Theory? 193
- A. Bakač:** Radical Kinetics as a Mechanistic and Analytical Tool 435
- A. T. Balaban:** Lowering the Intra- and Intermolecular Degeneracy of Topological Invariants 447

FEATURE ARTICLE

Physical and Theoretical Chemistry

- M. Randić, Z. Mihalić, S. Nikolić, and N. Trinajstić:** Graph- Theoretical Correlations – Artifacts or Facts? 411

APPENDIX

| | |
|--|----------------------|
| Book Reviews | A1-A2, A5-A6, A9-A13 |
| Obituary | A3-A4 |
| Erratum | A7 |
| Announcement | A14 |
| Meeting of Croatian Chemical Society | A15-A26 |
| Prijedlog Pravila Hrvatskoga kemijskog društva | 27-A36 |
| Instructions to Authors | C1-C3 |
| Acknowledgement to Referees | C5 |
| Contents and Index of <i>Croatica Chemica Acta</i> vol. 66 | C7 |
